SPECIALITY ACTS

LOOKING FOR SOMETHING REALLY SPECIAL?

That instagrammable moment for your guests to capture and share on their socials?

We have a selection of truly one-of-a-kind acts to amaze your guests and give your event that real wow factor.

BALLOON POP

Balloon pop is a tongue in cheek act consisting of the artist performing a dance act whilst adorned in balloons. They interact with the tables of guests giving them the opportunity to pop a balloon at a time to eventually reveal a stunning costume underneath. Some acts fill the balloons and their gloves with sparkly confetti for an extra special effect when revealing!

BURLESQUE

A classic and hugely popular act for any event. A beautifully choreographed, theatrical number in which the artist performs a captivating dance piece dressed in stunning, vintage costume with feather fans or boa props. She slowly and tantalisingly removes costume, piece by piece in time with the music, culminating in a cheeky reveal!

AERIALIST

A stunning display of flexibility, strength and grace. We have a fantastic rigger who will be able to come in and work out how best to provide you with the ability to hoist and hold our fabulous aerialists and from which loading point in the ceiling. Many of our aerialists are multi talented meaning they will be able to either offer 2 aerial shows or 2 acts of different skills.

MAGICIAN

Our internationally acclaimed magicians are a huge hit on the cabaret scene. Prepared to be dazzled by their mind blowing slight on hand! A great social media tool and fantastic talking point for guests. Up close, street magic in the style of Dynamo and Chris Angel will guarantee to dazzle and delight all clientele.

FESTIVAL

With the likes of Glastonbury taking centre stage, when we talk about festivals we're excited to invite you down the rabbit hole and put together a one-of-a-kind, totally bespoke festival of live music for you!

We always ensure the most important aspects are the guest experiences and the entertainment - rather than the instagrammable photo wall and fancy canapés.

Our expertise lie within providing immersive and theatrical, musical events. Taking an audience member on a journey from the celebratory moment they arrive, through to the peak evening entertainment with a packed dance floor, to the less intrusive acoustic sets for those who want a quieter time.

These include; stilt walkers, fire breathers, roaming brass bands, roaming samba dancers, face painters, steel pan band, glitter artists, jugglers and assorted circus performers.

We need to cover all bases and that's exactly what we specialise in - providing a programme of music to perfectly suit a larger event.

We can also provide a little something for younger guests - with our animators and children's entertainers who can happily supply hours worth of fun and games (balloon modelling, party games and even teaching simple circus tricks) to keep little ones entertained and give mum and dad a well deserved break.

To ensure your guests see all entertainment offerings we would include roaming acts to cover all ground.

STAGE BASED: FESTIVAL ENTERTAINMENT PACKAGES:

Utilising our varied and exciting line up of musicians we can cover a stage time of 5 hours, including performances from a full 6 piece live band, live DJ and professional show host.

For an upgraded offering we can cover a stage time of 8 hours with a variety of acts interspersed with a live DJ and professional host throughout. We can include acts such as radio one style live lounge acoustic artists (duos, trios),

excellent quality tribute bands, interactive and captivating duelling pianos, whereby guests can make requests and a show-stopping finale from a fantastic band.

The top tier upgrade we can put forward a named artist. We've worked previously with Gok Wan, Becky Hill, Artful Dodger, Trevor Nelson and Sister Sledge.

WELLNESS WORKSHOPS

Anyone who owns a business and has a team working for them at this time will be pertinently aware of how important mental health and self care is right now. Gone are the days of romanticising the overworked and excusing burnt-out workers as “passionate” or “dedicated”.

IT'S TIME TO INVEST IN PEOPLE.

Invest in their health and well-being in the workplace and devoting the time necessary to lay in place the practises that will refresh and sustain them throughout the working year.

We're very proud to be working alongside several professional health and fitness experts specialising in creating innovative, bespoke well-being concepts to suit the requirements of every client.

SPECIALIST AREAS INCLUDE:

SOUND MEDITATION | MINDFULNESS | YOGA | BEGINNERS GUIDE TO NLP

All of these above points are carefully and creatively delivered in bespoke online workshops, improving mental health, confidence and promoting a healthier way to work.

OUR MOST RECENT CLIENTS INCLUDE

WELLNESS WORKSHOPS

SOUND MEDITATION

The ultimate in relaxation for the body and mind, sound meditation is a powerful session designed to release tension and promote better mental health.

Everyone can benefit from a healthy and positive outlet to release the pressures of a busy, modern working day. The meditation is supported by the healing sounds of the gong, Himalayan and crystal bowls and gentle breathing exercises from our guide who will talk guests through techniques to help calm the mind and stir the soul.

NLP

Neuro Linguistic Programming can be an incredibly useful tool for dealing with modern stresses and strains, especially in the workplace. NLP is a training practice to aid in the process of changing thoughts and learned behaviours to help achieve desirable outcomes. Our subconscious behaviours and deep rooted in our brains but over time they can be manipulated for the better of our mental health. This practise can also reduce anxiety and improve overall well-being.

MINDFULNESS WORKSHOP

Our mindfulness workshop is a session designed to introduce how mindfulness-based approaches can help with managing issues we all face such as stress, anxiety, low mood and chronic health conditions.

This workshop involves an introduction on what we mean by mindfulness, followed by being led through some mindfulness meditation practices. With our very own spiritual leader at the helm, the guided meditation practices will involve some breathing techniques and explore the mindfulness-based approach to working with difficulties and stress.

PUPPY YOGA

Downward dog, with an actual dog! We can't think of a bigger boost for your serotonin levels than a relaxing yoga session filled with breathing exercises, gentle stretching and PUPPIES!

Our expert Yoga teacher will be there to lead the practice whilst you fuss over your new fluffy pals. A sure fire hit for anyone looking to boost team morale and brighten someone's day!

YOGA

Led by fully qualified yoga teacher and spiritualist, our Yoga workshops are entirely tailored to achieve ultimate relaxation and inner peace, particularly focusing on the practise of Hatha Yoga.

The word Hatha translated from Sanskrit, separates into two parts, 'Ha' means sun and 'Tha' means Moon. When practicing yoga we are helping to bring balance to these two opposing energies. We can use certain postures and breathing techniques when we are feeling sluggish or lethargic or want to build heat to generate more energy.
